

AMERICA, LET'S DO IT TOGETHER

The partnership between **Ferretti Construction** and **Stewart Builders** consistently emphasizes **efficiency, innovation, and excellence** across all our projects within the **US market**, particularly in the steel industry.

Here are the key advantages of our collaboration

Accelerated Construction Timelines:

leveraging fast-track methodologies to revamp plant foundations, we have successfully compressed project durations by 75%, while upholding the highest standards of quality and safety.

Combined Expertise:

Ferretti Construction's outstanding track record in fast-track revamping projects complements Stewart Builders' deep knowledge and experience in the US market. This synergy enhances value at every phase of construction.

Robust Presence in the American Steel Industry:

operating from a strategically situated base in Houston, Texas, Ferretti Construction and Stewart Builders solidify their standing in the American market, spearheading construction innovation and expertise specifically within the steel industry.

Together, we are shaping the future of civil construction in the United States
